DETAILED ACTION

Claim Objections

Claims 29-56 objected to because of the following informalities: With respect to claims 29-52, radiography is spelled incorrectly. As to claims 53-56, "A mammographic applications" should reflect either the singular or the plural. Appropriate correction is required. Additionally, the changes to claims 53-56 still set forth a use without any claimed recitation of steps that comprise this process. A change from "A mammographic applications" to "A mammographic system" is recommended.

Allowable Subject Matter

Claims 1-57 allowed.

The following is an examiner's statement of reasons for allowance: A screen comprising the binderless needle-shaped phosphor CsBr: Eu, with the dopant in the range of 100-400 p.p.m. versus CsBr, was not found in prior art in conjunction with a substrate having roughness of less than 2 µm and a reflectivity of more than 80%, nor was the screen found to be obvious over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
